

Minutes

Corbett Water District
Regular Monthly Board Meeting

April 10, 1990

There was no official meeting this night because there was not a quorum of board members present. Those people present at the meeting included Chairman Pete Place, Director Edith Mastne, Supt. Vance Hubbard, Ass;t Supt Randy Stark, Dist. Clerk Carol Quinn, employee Marc Caldwell, and engineers, Gil Meigs and Tom Tye. Harlan Halvorsen was present for a short time to request a leak adjustment. Final approval will have to be delayed until next month.

Tom Tye and Gil Meigs did present information on the progress of the plans for the Water Treatment Plant. They advised the Board that there is room for a storage tank on the west end of the property. They will talk with BLM about using the pipe line easement for laying the power line since there is plenty of room. They presented a contract from PGE for installing power to the sight. The District could advertise for bids for digging the trench. The work would need to be completed by June 15 to keep current with the scheduling. Plans call for constructing three sand filters.

Discussion continued until 9:00 p.m.
